

Mine for coins in your home

The average household stash is \$90

- 1 Start in the most obvious spots – your pockets and handbags are places many of us accumulate coins.
- 2 “Bank” on finding a large portion of your treasure in the most practical places –50% of us keep change in a “Piggy” or other kind of bank.
- 3 28% of Americans find loose change in random places scattered around their homes.
- 4 71% of Americans find change in cups, jars and other containers. Leave no cup unturned.
- 5 Would you believe that 19% of us literally sit on our stash every night?
- 6 Among the dryer sheets and lint balls, 36% of us find the cleanest of the coin in the laundry room.
- 7 You might find more than junk in your drawers. 33% of us find spare change hiding there.
- 8 Before making your getaway to your local Coinstar Center®, sweep the car and you’re bound to find even more treasure!
